"On December 8, 2011, APS filed an "Additonal Status Update on RES Budget for November 2011." In that filing, APS identified \$19 million in collected, but unspent, funds (\$11.9 million), reduced 2012 revenue requirements and reduced O & M for the Flagstaff Community Power Project (\$2 million), and expected tax credits (\$5.1 million) that are available for the Commission to use at its discretion.

We believe, to be consistent with Commission Decision Number 72022, that this additional \$19 million in funding should be used for the restoration of the \$40 million residential incentive budget level ordered by the Commission in the 2011 REST Plan and for additional non-residential incentives. So, the \$19 million will be re-allocated to Staff's Option A as follows:

Residential PV Incentives: add \$12.75 million
Residential Non-PV Technology Incentives: add \$2.25 million
Small, Non-Residential Up-Front Incentives: add \$4 million"

Make All Conforming Changes.
